Some of the reasons that properties are coming back into stock are transfer to other properties, deaths, moving away or moving to other areas. 20 offers of accommodation have been refused up to the end of 2014 but there is no clear pattern for reasons for refusal.

02.03 Capital Programme

The allocation from the Housing Strategy has not yet been received, however work is being done in preparation for the funding. Cllr Donaghey was advised that the purchase of the 3 properties is almost complete.

02.04 Back lanes of Council Housing Estates

Cllr Mc Dermott was informed the back lanes of housing estates are the responsibility of the housing section.

02.05 Housing Strategy

Cllr Canning welcomed the €3.8 billion funding for the supply of 35,000 properties, however we need to ensure that funding is not only prioritized for Dublin. Cllr Mc Guinness suggested a countywide approach to seeking properties at a good price prior to the funding being made available. Cllr Mc Dermott added that it is important to seek accommodation in rural areas also. The decision to acquire properties is determined by the demand for housing in a location.

Sail West Project Plan

Following the meeting with Sail West partners in October 2014 and subsequent survey regarding project ideas and regional project needs, it was agreed that a further partner meeting be held in Q1 of 2015 to determine the next steps for the Sail West project. Many funding calls will open in Q1 of 2015 and so it is recommended that partners meet when a more definitive project strategy can be agreed. The Sail West project is likely to develop as a cluster of partners with different needs who will apply for funding via varying channels according to their project aims and objectives.

MalinWaters Website Development

The MalinWaters.com website will be future proofed with the transfer to a new CMS system in the coming weeks. The new CMS is mobile responsive and will ensure the continuation of the brand exposure online. The front end design of the website will remain the same. The new CMS has been chosen due to having the latest functionality to effectively carry out SEO. New development work on MalinWaters.com will include a revamp of functionality and content and is expected to be ongoing until March 2015.

Facebook Paid Advertising Campaign

Several paid Facebook advertising campaigns are ongoing with a selection of promotional banners used in conjunction with Facebook news feed advertising to reach a specific target audience. In the last three weeks MalinWaters Facebook page has over 2k new likes taking the total number of likes to over 3k. This figure continues to grow as the advertising campaign is ongoing. Potential overall reach of this campaign will target over 20k and grow.

Sail Scotland Campaign

MalinWaters banners are now live on SailScotland.co.uk. There are also several new blog posts dedicated to promoting MalinWaters now published on SailScotland.co.uk. These blog posts have been shared on Sail Scotland's Facebook and Twitter pages with a combined reach of over 30k of a targeted marine tourism audience.

MalinWaters Map Reprint

The MalinWaters fold out map has undergone a design revamp to update the list of blue flag beaches, to include Donegal Airport and Derry Airport, to add new attractions and facilities. The new map has been printed and will be distributed at promotional events, marinas and harbours throughout the MalinWaters regions.

Chelsea Magazine Company Ltd

The display advertising campaign including MPU and leaderboard banners went live on 2nd February across three prominent websites --- Classic Boat, Sailing Today and Yachts and Yachting with a combined audience of over 67k web, 49k e-mail subscribers and 142k social media followers. This campaign highlights Donegal as a sailing and marine tourism destination to a wide audience in the UK market.

Google Ad Words Campaign

The tender process for the award of the Google Ad Words

	<p>campaign to promote MalinWaters is almost complete. The campaign will target relevant keyword searches and audiences ensuring that visitors to the website are relevant users who want to be there. The contract will be awarded by the week commencing 9th February with the campaign due to go live mid February.</p> <p>MalinWaters Design Creatives and Video Production A professional suite of banner adverts, Facebook covers and YouTube/Twitter background imagery have been designed to promote MalinWaters and represent each region equally. These can be found across social media channels and are being used in campaigns such as the Chelsea Magazine Campaign detailed above. The procurement process for the production of a professional MalinWaters video to showcase marine tourism in the three regions has commenced with production expected to being in mid-end February.</p> <p>E-mail Marketing E-mail Marketing is ongoing with a fortnightly e-mail sent out to over 607 subscribers. The subscribe tab that has been added to the MalinWaters Facebook page continues to gather additional subscriptions via social media.</p> <p>Strategic Events Some strategic events proposals have now been received, but event organisers have until March to submit proposals. Those currently received are under consideration in terms of financial assistance, but will be promoted via the website and social media channels as standard and at no cost. Any marine themed event organisers who wish to list their event on MalinWaters.com should contact Joy Harron by e-mailing donegalmarinetourism@gmail.com</p> <p>Branded Merchandise A selection of branded merchandise for promoting MalinWaters at strategic festivals and events has been produced and delivered. It will be used at various promotional events throughout 2015.</p> <p>Other Project Opportunities INTERREG V themes are no longer specific to tourism, therefore consideration is being given to other programmes such as Atlantic Area Programme and the NPA (Northern Periphery & Arctic Programme) to facilitate the continuation of Sail West. Funding is very much focused on needs and work is being done to establish the main needs in the marine tourism sector in Donegal and indeed in the Sail West regions. It is likely that the future of Sail West will involve a number of projects with clusters of the original 22 Sail West partners coming together to work on projects that serve the needs of their own regions. The project partnership has always been very strong and partners are keen to work together going forward and will adapt to changes in funding programmes and project consortium structures.</p>
