Introduction

<u>www.etenders.gov.ie</u> is the primary tool used by Public Bodies in Ireland to advertise their requirements for contracts for supplies, works and services.

It is also being used more increasingly by Public Bodies for quotations and minicompetitions under framework agreements.

It is essential therefore that all suppliers are registered on the system in order to ensure you don't miss out on quotation and tender opportunities.

In the local authority sector, suppliers should also ensure they are registered on the SupplyGov system which is a separate tool used by the sector.

Steps to Register

There are a number of steps to be completed to ensure a comprehensive profile is created on the etenders website.

Step 1 Log on to <u>www.etenders.gov.ie</u>

Step 2 Click on the Supplier Company Registration field

Step 3 Complete the relevant fields:

What are CPV Codes?

CPV Codes - the Common Procurement Vocabulary. This a special EU procurement coding for supplies, works and services to enable multi-lingual translation and interpretation of tender opportunities throughout the EU - it is used by Contracting Authorities to classify requirements consistently and to help suppliers find contract notices of interest to them.

By registering the relevant CPV Codes of interest on your profile on eTenders you are ensuring that don't miss out on tender opportunities. There is no limit to the number of CPV codes which you select.

The codes are structured as follows:

Supplies start at	01000000 - 44000000 and 48000000
Services start at	5000000 - 9900000
Works are classified under Section	45000000 only.

On the CPV Codes section, click on Add CPV. There may be multiple codes that suit your business so spend a lot of time selecting as many codes that are relevant. (the -9; -0 digits are check digits - it is the first 8 digits that dictate the category).
