Donegal County Council Cultural Services is proud to present their 13th annual programme of events for Culture Night, the all-island public event that celebrates culture, creativity, and the arts. This exceptional night of cultural festivities takes place once per year as part of a national celebration of arts, heritage, and culture. Culture Night has grown steadily since its inception in 2006 with inspiring commitment from local authorities, cultural organisations and community collaborations throughout the country. All events are, as always, completely free of charge.

This year's programme marks a tentative return to live, in-person events, in line with the recent easing of restrictions around both indoor and outdoor gatherings, performances and exhibitions. As such, all our participating artists, venues and groups are looking forward immensely to welcoming back live audiences once again. Please remember, however, that while all Culture Night events are FREE

of charge, many Covid 19 restrictions remain in place and there are limits to the audience numbers who can attend live events on the night. Therefore, **advance booking** is essential for all such events. Please check in advance with each venue you intend to visit and plan your Culture Night accordingly.

On Culture Night, we invite people of all ages to take time out to explore the richness and joy of Irish culture and heritage. This year's programme will be presented in both physical and online events allowing for people at home and abroad to connect with Donegal culture. Full listings for venues and online links are available throughout this programme and online at [www.culturenight.ie](http://www.culturenight.ie)

We would ask that all visitors to Culture Night live events please observe and abide by the Covid 19 protocols and guidelines that have been put in place by our participating venues, in the interests of public safety.

#### Sister Black

Catherine Black (1878-1949) MBE, was born in Ramelton. She trained as a nurse in England and worked in the slums of Whitechapel, at the Somme in World War 1, and as King George V's private nurse in the last 7 years of his life. Her memoir 'King's Nurse Beggar's Nurse' was published in 1939 and there's a copy in the library at Buckingham Palace. This one-woman play is based on that memoir.

Catherine is coming to the end of her remarkable life. She has been exposed to the best and worst of humanity, and has always focused valiantly on forgetting the latter. At last, she realises that the past doesn't go away, and that the only way to forget is to remember.
